

# Technology Upgrade for your Student?

As Technology is rapidly changing around us, as parents, we want to ensure **our children are ready for the future**, keeping up with the world, preparing for middle school, high school, college and beyond! A big part of that learning is their everyday classroom environment. Currently the school set up is a fixed computer lab which the kids visit at certain hours in the week and work at immobile desktops with legacy CPUs posing limitations on programs and software.

**What if** the lab came to their class multiple times when they needed it? What if the class could be grouped into flex configurations working on simultaneous different projects per each group's needs, collaborating and learning as they need to, in their future? What if the latest software including Google Applications could be available right in their classroom?

A total of \$9,000 can make this happen as soon as at the **start of 2019-20**, ready for your child to use! The PTA wants to request your help to fundraise for this \$9,000 which will enable purchase of 32 Chromebooks, mobile carts, iPad updates and other equipment to create a **"FLEX LAB"**.

We hope that in the last 6+ months you have experienced the PTA's laser focus on programs which **directly benefit our students**. Responsible use of the money raised at the start of 2018-19, utilizing multiple non-traditional fundraising avenues including writing for grants, seeking corporate donations and simple old-fashioned cost cutting have all helped us raise some funds. However, those funds are not enough to entirely fund this FLEX LAB. PTA is committed to use available PTA funds to close any small gap, but **your donations are needed** to fund the large majority of the \$9k.
